Add Moes SMART IR

1: Download Smart Life APP

2: Registration or log in

- Download "Smart Life" Application.
- Enter the Register/Login interface: tap "Register" to create an account by entering your phone number to get verification code and "Set pass-word". Choose "Log in" if you already have a Smart life account

3: Configure the APP to Moes Smart IR

Preparation: Ensure the device has connected with electricity; ensure your phone has connected to WIFI router and is able to connect to the internet .
Note: this device only supports 2.4G network. If you have connected 5G network, please disconnect 5G network firstly.

- Tap the icon "+" at the top right corner and Select Device Type: tap "All" and choose "Infrared Universal Remote Control". Add Device interface will be available then.
- Press and hold the reset button for at least 5 seconds until the network configuration indicator blinks
- Press "Confirm indicator rapidly blink"
- After Device added successfully, it can be found on "My Family" list.

Add Remote Control

Choose your existing appliance and add remote , such as Air conditioner, TV,STB, TV box, FAN (support more than 4000+main brand).

You can also choose "Copy button" function to learn if some of the appliance cannot be controlled.

Copy Button Operation

If you cannot find the remote which is able to control appliance, you can learn the function through copy button.(Notice: Currently copy button function only support TV / STB /TV BOX / FAN, exclude Air conditioner)

Step 1: Click to enter the connected device

Step 2: Click the edit button in the upper right corner

Step 3: Select "Copy button" in the popup menu bar

DIY OPERATION

If you can't find your IR appliance in existed appliance form, you may ask DIY function for help.

Step 1: Click the DIY button.

Step 2: Click "next step".

Step 3: Press your original remote button, APP will redirect to next step automatically.

Step 4: Rechristen.

Step 5: Save settings.

If need to change or add more button, you can choose up right corner "Edit" button for help.

Set your Echo speaker by Alexa APP

1.If you have finished to install Smart Life then open Amazon Alexa App: sign in your Alexa account and enter password.

2.Click the menu on the left corner—click "Settings: choose "Set up a new device"(choose a device ,like Echo)Note: When the below page appears, long press the small dot on your Echo device until the light turns to yellow. Then Click Continue on App

Note: at this moment, the mobile phone cannot open a variety of VPN software.

Enable Smart Life Skill in Alexa APP

Step 1: Choose "Skill" in the option bar, and then search "SMART Life" in the input box.

Step 2: Select Smart Life in the search results, and then click "Enable Skill".

Step 3: Then input the user name and password of Smart Life APP that you had previously registered.

Control the device by voice

After the above operation is successful, you can control the device via Echo.

1:Discover Device

Firstly, you need to say to the Echo: Echo (or Alexa), discover my devices. Echo will start to find the device which is added in the Smart Life APP. It will take about 20 seconds, then Echo will tell you the result. You can also click "Discover devices" in Alexa APP, then it will show the devices that have been found successfully .

You can also group the device and give instructions to control them together.

2: Control Device by Voice

Note: The name of the device must be consistent with the addition of Smart Life APP.

3:Support Skill List

You can control the devices by instructions like these: Alexa(or Echo, turn on the Devices Alexa(or Echo),turn off the Devices.

Google Assistant —Activate Smart Life in Google Home App

Preparation

- Have downloaded the Google Home App—compatible With Android(4.2 or higher) or ISO(8.0 or higher) smartphones or tablet.
- Have registered your google Account.

背面

- Have paired Device with Smart Life App and named it with a recognizable name.
- Have finished setting up Google Home

Step 1: Open Google Home App; tap () on the upper left corner; select "More Settings" to enter the next interface.

Step 2: Choose "Services" in the options bar and select "Smart Life" to enter the next interface.

Step 3: Tap " Link Account ", then sign in your smart Life Account.

Step 4: Tap "Link Now", after your Smart Life account had linked to Google Assistant, the smart devices will automatically appear.

Command the Device through Your Voice.

Firstly, you need to say "OK Google, talk to Smart Life" to wake up the Smart Life. Then you can control the device by instructions like these: Turn on the/Turn off the

Note: After Smart Life has been wakened up, you may say "Cancel "or "Stop" to exit Smart Life or say "Nothing" when you hear "what can I do for you" . Then you can say "OK Google, talk to Smart Life" to start voice control.

Voice Control Instruct

Device	Alexa command list

Trouble Shooting Guide

Why MOES'S Smart Universal Remote can't control the appliance?

Step 1: Make sure if the network works well in Smart IR (Touch any button on the smart app remote side, if the indicator light works fine ,then network ok)

Step 2: Check if there is obstacle between remote and appliance, within 8 meters

Step 3: Confirm if the original remote control is Infrared control (Press the remote control after warding off the remote control head with hand or other object, if appliance do not work, it's Infrared control. If not work, it should be Bluetooth or radio frequency control)
